

# Mayne Island Improvement District

## Water Systems Operation Policy

### STATEMENT

Mayne Island Improvement District is permitted to operate potable water supply systems and will operate the systems as required in accordance with the *Drinking Water Protection Act* and in accordance with the conditions set out in the operating permits.

### PROCEDURE

- The systems are generally described as: The Health Centre System, the BCAS System and the Fire Hall Water System.
- Permits are issued by Island Health
- An appropriately Certified Operator shall maintain the systems.
- Staff will ensure compliance with the operating permits including monthly water sampling for testing.
- Water samples will be taken more frequently should any lab report indicate other than an L1 rating or if requested by Island Health.
